

SMART INDUSTRIAL SINGLE CHANNEL VOICE ALARM (MODEL VA-1)

SMART SINGLE CHANNEL VOICE ALARM (MODEL VA-1) is single channel prerecorded module, externally triggered voice annunciation system with an INTEGRATED power amplifier of 30 W connected with 1 SMART LOUD SPEAKER HORN. These units are very useful in heavy, medium and small process industries.

SMART SINGLE CHANNEL VOICE ALARM (MODEL VA-1) is a new and enhanced single channel prerecorded voice module. The prerecorded messages can be a voice, sirens, etc. Its ideal application is warning alarms. Each channel can hold up to 60 seconds of recorded voice or siren. The unit has an integrated amplifier. For more than 2 speakers, high power **SMART EXTERNAL AMPLIFIER UNIT** can be connected with the unit. The warning message can be activated by non ohmic contact of an external relay which is activated due to a fault in users system for which that corresponding voice /alarm warning has to be played endlessly till the fault is rectified.
